## **AHERA NOTICE**

### **For School Year 2020-2021**

The Asbestos Hazard Emergency Response Act of 1986 (AHERA) was enacted by Congress to determine the extent of and develop solutions for any problems schools may have related to asbestos. A certified asbestos inspector, as required by AHERA, has inspected facilities of the Muscogee County School District. The results of the inspection were used to develop a professionally certified asbestos management plan.

The management plan of the district facilities includes the education and training of employees, a set of plans and procedures designed to minimize the disturbance of asbestos-containing materials and plans for regular surveillance of those materials.

A copy of the asbestos management plan is available for your scrutiny in the Principal or Supervisor's office.
